

VIDIGAMI QUICK START for Teachers

1. Take photos

We know you love taking photos of your students and the great things they do. Keep doing this!

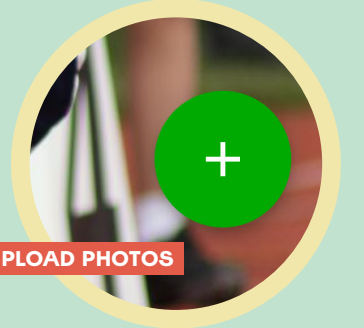

TAKE PHOTOS

2. Upload photos

Take a few minutes to upload your photos to your class Page. Albums can help you better organize photos into special projects or events.

[Not sure where to upload? Go to the “Explore” tab to locate your upload Page. Favorite your Page for easy access. Or, contact your Vidigami Administrator for more help.]

UPLOAD PHOTOS

3. Add “Story”

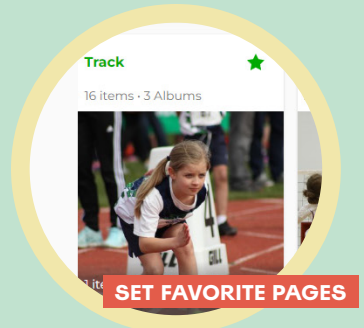

Optionally, adding a description to your uploads lets you better tell the story behind the photos.

ADD “STORY”

4. Remind Parents

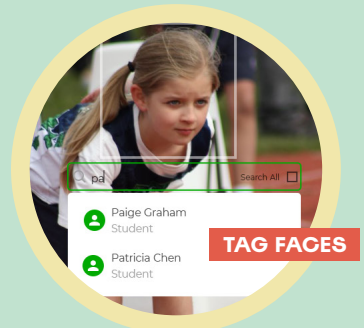

Don’t forget to regularly remind your parents that they can find all your photos in Vidigami. Let them know they can “favorite★” your class Page under Explore to quickly see your new uploads.

SET FAVORITE PAGES

5. Tag Faces

Every photo tagged goes into the student’s personal collection immediately viewable by parents. Encourage everyone to tag by just selecting a name!

TAG FACES

vidigami

Your school. Your photos. Your stories.
